## Lumbar, Thoracic, and Cervical Basic, Intermediate, and Advanced

**May 14 - 15, 2005**  
*Saturday and Sunday*

**Medical Education and Research Institute**  
Memphis, Tennessee

## Description

This **1 1/2 day workshop** will include both **lectures** and **hands-on work using cadavers**. This workshop will allow the participant to experience a **comprehensive** and **intense** learning opportunity focusing on interventional pain management techniques.

This program is designed for **interventional pain physicians**. This program is the most in-depth, comprehensive, and individualized program available in interventional pain management with maximum hands-on training with cadavers in a **state-of-the-art facility** with maximum ability to interact with each other.

Each workshop (cadaver station) is limited to **a maximum of 8 participants**.

Workshop is limited to **approximately 70** participants with **10** cadaver stations.

**Participants can choose the areas of participation: Basic, Intermediate, or Advanced.**

C-arms and state-of-the-art equipment are utilized in this course. Participants are requested to dress in casual attire or scrubs. Leaded aprons and thyroid shields will be provided. **However, participants are advised to bring their own protective eyewear.**

## Purpose / Target Audience

ASIPP's comprehensive workshop is offered to improve multiple aspects of interventional pain management. The workshop is designed for participants to learn interventional pain management techniques.

## Accreditation Statement

This activity has been planned and implemented in accordance with Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Louisville and the American Society of Interventional Pain Physicians. The University of Louisville is accredited by the ACCME to provide continuing medical education for physicians.
