

Preserve Patient Access

Contact Congress To Prevent Cuts

As we near the end of the year the pending cuts are now just around the corner. With just a few months left, we must once again contact our elected officials. It is crucial we continue to make them aware of our legislative issues.

- Physician Payment Reform
- ASC Reimbursement Cuts
- NASPER Funding

ASIPP has created a new Capwiz letter campaign to assist you in contacting Congress. We urge you to sign the letter and support this effort.

1. Go to the Web site <http://capwiz.com/asipp>
Click on the link to “2007 Legislative Issues - Patients, Staff, etc.”
2. Customize a letter to President Bush, your two senators, and your representative
3. Enter your contact information
(zip code will determine correct Congresspeople to contact)
4. Send your letter by email, or print out to send by postal service.
If you choose to send letters via USPS or fax, it is helpful to send the letter on your personal letterhead.
5. Also you can print off the Advocacy page and post it in your office to provide Web site information. The Key to a successful lobbying campaign is awareness, information, and action.
